

Hello, my name is Rishav Kumar i am working as an Assistant System Engineer at Tata Consultancy Services.

I have done my Engineering in Production and Management Engineering from Parala Maharaja Engineering College, which is situated at Odisha.

I have done my schooling from D E M School Rourkela.

As we all know the importance of data in today's world, the working scenarios with data has increased tremendously.

So working as a IT professional it was quiet fascinating to work with data, Visualizing data, learning concepts of Machine Learning and many more.

EDYODA platform provided all in one package which help us to from understanding data to processing it.

Current market scenarios also shows the importance of data so working with it will be more challenging and fascinating.

Data Science is evolving quickly because of the increasing demand of data around the world.

Data Scientists are being hired by the companies from almost every fields so being from a non it field this was he correct carrier option for me.

Approximately the requirement of a Data Scientists is increasing by 50% ,so this will lead to high demand.

And yes good salary option.

Solve Complex Problems is also one factor which pulled me toward this course.
